

Lehi City Historical Archives Eagle Projects Possibilities for 2013-2014

The Lehi City Archives have just been established. The base document of the Archives was the collection of historical photographs and documents gathered by the late Scouter and Historian Richard Van Wagoner. He was a deaf scout, but didn't let that stand in his way. As a scout he received every merit badge available at the time. He documented and wrote about Lehi History. He wrote the current history of Lehi City. His work needs to be carried on by the Scouts of Lehi.

Section One-Woodworking

Project 1-A Wood Holder for Framed photographs.

Project be taken by Isaac Madsen.

Project 1B Wood Holder for oversized photographs (Two Different Project) The Archives has a collection of oversized photographs that need to be stored and protected. We will need to have a case build with slotted sections to hold oversized photographs. The case would be 5 feet wide X 4 feet tall X 4 feet deep. The slots will be about 2 inches wide. The scout will raise the money for the project, construct it and finish the holder for these photographs. This will save hundreds of pictures from damage.

Section Five-File Folder Labels

Project 5A

All the files at the Archives are in need of computer prepared file folder labels. We will need one on the Manila Folder of each file and the other on the green hanging folders. The plastic form we use on the hanging folders are provided and are at the Archives. The Listing of the Archives files are all typed and on a google document and can be emailed to the Scout.

The Scout will obtain the File folder labels for the manila folders and print

them out. The Scouts will apply them to each of the files so they look professional

They will also put little stickers into the plastic containers for the identification on the green hanging folders. The Scouts will also connect these to the proper place on the green hanging folders. This will be a great help to the Archives.
