

Mayor's Message: EnerLyte: The Key to Conservation

July 2011

Since the early 1900's, citizens of Lehi have been fortunate enough to have their own power department within the City. Lehi is proud of the great history of Lehi Power, and as Mayor, I am confident that the future will be just as bright.

As new businesses and families continue to choose Lehi as their home, energy conservation becomes crucial to keeping costs low for the City, and most importantly, the citizens. Energy conservation, in all its forms, will allow Lehi Power to continue to provide continuous, uninterrupted service, while postponing the construction of new power plants or having to purchase expensive power on the open market to meet high demands for electricity.

As a City, we have adopted a new program, EnerLyte, in hopes to greatly reduce the demand for electricity inside the City. As you look at your recent bills, you will see how you compare to your neighbors and to the average household in the City, in terms of energy use. You will also be shown how much money you could save by following specific tips.

I am confident that our future will be brighter, when we keep the lights off!

-Mayor Bert Wilson

If you are interested in being a food or boutique vendor, please download an application from to the Lehi City website, or contact Teisha Wilson at 801-407-1006.

In this Issue:

- Mayor's Message: Enerlyte: The Key to Conservation (front)
- July 23, Foam Day at the Lehi Sports Park from 11 a.m. - 4 p.m. (front)
- Arts in the Park Summer Series. Every Sunday, 7 p.m. at Wines Park.
- Lehi Library's July Workshops
- Lehi City Contact Information
- Fox Hollow Golf Summer Schedule
- Message from the Lehi Fire Department

Summer Yard of the Month:

- Submit nominations by email to lehiyardofthemonth@yahoo.com or call 801-768-2547.
- With your nomination, include your name, phone number, the name, address, and phone number of the yard you are recommending, and why.
- Winners will receive a \$50 "Power Buck" voucher to be credited towards their Lehi City Utility bill.
- Winners are chosen based on curb-appeal and overall attractiveness of the property.

Lehi City Municipal Election

There will be three City Council seats up for election this year. Any resident wishing to become a candidate for office will need to file a Declaration of Candidacy with the City Recorder beginning July 1, and pay the \$35.00 filing fee. **The filing deadline has been extended to Monday, July 18 at 6 p.m.** Filing qualifications, forms, and additional election information can be found on the City's web-site at www.lehi-ut.gov or you can contact Marilyn Banasky, City Recorder, at (801) 768-7100 x 2254 or e-mail her at mbanasky@lehi-ut.gov.

Lehi Farmer's Market

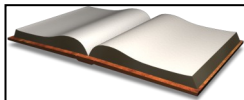

The 2011 Market kicks off the new season Saturday August 6th, and will be open every Saturday until October while the weather permits. The Lehi Farmers Market and Boutique is seeking applications from vendors for the upcoming season. Please contact us at lehifarmersmarket@gmail.com.

Each year new vendors are added to strengthen existing product offerings and to provide exciting opportunities for the community to support local growers, food producers, and artisans. More than 100 vendors have been involved in the market since 2009 and we are growing all the time. Application information can be found on our Application page on our new website. Applications will be accepted all through the season. New vendors are always welcome while we are growing. Please visit our new website www.lehifarmersmarket.com

Lehi Library

Message from the Lehi Fire Department

In the upcoming summer months, you may notice fire department personnel flowing water from city hydrants. The fire department performs yearly inspections and testing of fire hydrants. This is a required inspection according to National Fire Protection Association. Hydrants are checked for operational function, visually inspected for damage, flushed, checked for proper valve operation, cap threads lubricated and verifying that the hydrant drains properly. Water systems are constantly being impacted by improvements, deterioration, changes in usage, and even water district maintenance activities which may affect zone valve settings. As a result, it is important to test all fire hydrants to determine what their capabilities would be in an emergency. Testing can uncover a

number of mechanical problems from valves that don't operate properly, to leaks, and even pump damaging debris flowing from hydrants. Common debris found during testing range from construction waste, rocks, sand, and even an infestation of living clams. If any type of debris enters into a fire pump during fire ground operations, it could seize the function of the pump and cause catastrophic damage. You may see fire crews flushing the water system for a long amount of time to clear the system and prevent any possible damage to the fire pumps. Hydrant testing will be conducted from now until the late summer months. Water conservation is always a concern and the fire department works closely with the city water department to monitor the available water supply. Testing only occurs during the months that there is a sufficient water supply, which currently is not an issue.

This is also a time to remind citizens of other city regulations concerning fire hydrants. [A 3-foot clear space shall be maintained around the circumference of fire hydrants.](#) Posts, fences, vehicles, growth, trash, storage and other materials and things shall not be placed or kept near fire hydrants, fire department inlet connections or fire department control valves in a manner that would prevent such equipment from being immediately visible or rapidly available. Another reminder is that it is against city regulations to have any top soil or landscaping dirt near waterways or on the road. While flushing hydrants, a large amount of water will be flowing into these waterways and will wash away any obstruction that is nearby these waterways.

FIREWORKS REMINDER

The fire department has a "ZERO-TOLERANCE" fireworks ban for the following areas: Any area North of SR-92 and the Dry Creek Corridor area. If you have any questions or concerns about the fireworks ban area or general firework safety, you may call the fire department for assistance. Furthermore, please help keep Lehi clean and properly soak and discard all firework debris after your home display is over.

Lehi Legacy Community Center

www.lehi-ut.gov/legacycenter

PROGRAMS

MON-FRI	9-10:50 PM
SATURDAY	8-9:50 PM (School year only)

Outdoor Swimming Pool

Beginning the Spring of 2011 the Outdoor Swimming Pool will begin a phased process of renovation and upgrading of the aquatic facility. The process will begin with the demolition of the old tube slide which has been determined to be unsafe by the Risk Manager and resurfacing the leisure and baby pool. This means that we will not have a slide during the 2011 summer. However, improvements scheduled for this summer include 2 Aquaclimb climbing walls and a Myrtha liner for the pools. Other upgrades and improvements will be announced as soon as possible. Pool fees have been changed to account for the loss of the slide.

FITNESS ETIQUETTE 101

Did you know that workout areas are the top breeding places for germs? Help us continue to keep our facility clean by disinfecting your equipment after each use. It is highly recommended to bring your own towel for you to use to wipe off your sweat from your forehead and for protection when sitting or lying down on the equipment. Washing your hands after restroom use is encouraged. Please do not spit on the floors or drinking fountains. Hand sanitizer is available throughout the facility.
