**Note: Proposed species and other varieties beyond the Approved Plant List may be submitted for review by the Traverse Mountain Aesthetic Review Committee (ARC) and shall be approved or disapproved on a case by case basis.**

All Trees should be a minimum caliber of 1 1/2"

**\*\*Quaking Aspens are not permitted for Residential use.\*\***

Fruit trees may be approved on a case by case basis. Fruit trees may only be planted in private, rear yards not visible from main boulevards, public streets, parks, open spaces, trails, etc. All fruit trees must be semi-dwarf in size and placed a minimum distance of their drop zone from all property lines. The drop zone is the mature diameter of the tree, how far out the branches will reach when full grown.

Park strip trees are specific to each subdivision - please contact the TMMA offices for information on the approved Park Strip Trees for your neighborhood.

Perennials listed are representative of what has been planted in the TMMA common areas and open spaces. Perennials and Annuals do not need to be submitted or reviewed for approval.

List subject to change without notice by Traverse Mountain Aesthetic Review Committee.
