April 2016

From Mayor Wilson Communication and City Happenings

It looks like spring is here. I can't help but think of how much we have been blessed with moisture this year. I'm

looking forward to green grass and mowing my lawn. I guess that's Spring Fever. In a few months I'll be waiting for fall to come.

Over the past few weeks I have been able to visit a few South American countries. Wow, what an eye-opener. We have what other countries are praying for, and we often take it for granted.

I visited a school with iron bars on the windows and no air conditioning. The kids were neat and dressed alike, but they were packed in like sardines. They were sitting at chairs without desks, forced to hold their papers while they work. We are so fortunate for our children to have nice school buildings, lunch rooms, and playing fields. Sure, we have portable class rooms. By our standards we have a shortage of school buildings and more kids in each class than we would like. But our children are comfortable and are given the tools they need to learn

and grow.

We also saw one-room homes that were no bigger than eight square feet. They had tin roofs and plumbing that drained into the ditch. We are so blessed, even if what we have isn't perfect. We have electricity in our homes, water from a pipe, and toilets that flush. I'm happy to live in a city where our Public Works Department works hard to make sure we have everything we need.

My visit also made me think of the freedoms that we enjoy. We live in a nation where politics can become annoying. We are wondering who will keep their promises, who is the best to serve our nation, and who will actually win. We are blessed to have a say in who runs our city and country. Leaders are not appointed by a dictator, but are elected by our vote. I encourage you to study the issues and vote for the person who supports the standards and policies that you like.

In short, I'm happy I had the opportunity to see how other parts of the world live. It was a once in a lifetime experience for me. I learned much and gained a great appreciation for what we all enjoy.

On a separate note, Lehi green waste pick-up has started. If you don't have a green waste can, call Utility Billing. Let's get off to a beautiful start. Don't be afraid to help your neighbor with a cleanup project. Mow the dead grass, prune the

trees and bushes and get your yard looking good for summer. Fertilize your lawn, but there is no sense in watering too much. Lawns need to be nourished like kids; feed them well, water when needed and play with them often.

Find something good to say about someone you don't like and do something to make someone smile. It will reduce wrinkles and relieve indigestion. Have a great spring and enjoy every day of your life.
