Ivory Ridge

Density Bonus Items

- A. **Active Recreation:** The Ivory Ridge plan contains the Ivory Ridge Swim and Tennis Club. This club includes 4 indoor tennis courts and six outdoor tennis courts. The club will include a large aquatics area. Inside the club house will have a dedicate fitness or work out facility.
- B. **Common Buildings or Facilities:** The Ivory Ridge Swim and Tennis club will have two common buildings. The first building will be used to enclose four tennis courts. The second building will be the main clubhouse. This building will include common meeting rooms, reception area or ballroom, exercise facility, meeting rooms, etc.
- C. **Fencing:** Ivory Ridge will include decorative fencing that will be installed throughout the entire development. The collector streets namely 3200 North and Center Street will have masonry fencing consistent with City standards. The remaining portion of the project will have decorative fencing in harmony with the architectural features of the community.
- D. **Attached Garage:** All single family and town home units within the Ivory Ridge community will contain attached, enclosed two car garages. All live work apartments will have enclosed covered garages to meet the requirements to satisfy the off street parking requirements.
- E. **Materials:** All commercial buildings, single family homes and multi-family homes will be built using 100 percent brick, stucco, stone, or other similar durable materials as exterior materials (with the exception of roofing materials, eaves, doors, windows, and other similar architectural details).
- F. **Roof Materials:** All single family and multi-family homes within Ivory Ridge will be constructed with architectural grade asphalt shingles.
- G. **Street Beautification:** Center Street will be installed with a 10-foot landscaped island median. A landscaped round-about will be installed at the intersection of 3200 North and Center Street. The project will have a landscaped trail system that will connect 2600 North Street to the future Murdock Canal master trail system. A detailed street tree planting plan will be incorporated into all streets within the community. Trees will be required to be installed and will be enforced by the HOA.
- H. **Landscaping Entries:** Ivory Ridge will have eight different landscaped entry sign monument locations within the development.

The above items allowed the project to have 835 residential units as approved in the concept plan as approved by Lehi City Council.

Ivory Ridge

High Density Development Standards

- A. **Materials:** The Ivory Ridge multi-family units will be constructed using materials consistent with the overall theme of the Ivory Ridge community. Exterior materials will be stucco, stone, brick, or other similar durable materials as exterior materials. Aluminum or vinyl siding and cinder block will not be allowed.
- B. **Landscaping:** The multi-family area of the Ivory Ridge project will be attractively landscaped in all open areas not covered by buildings, structures, parking, sidewalks or trails, sports courts, and pools. A detailed landscaping and irrigation plan will be submitted to the City for approval prior to construction. The plan will include shrubs, trees, and grass areas as per ordinance.
- C. **Amenities:** We currently have the following amenities planned for the Ivory Ridge multi-family area.
1. Clubhouse: the clubhouse requirement for the multi-family area will be grouped into the swim and tennis clubhouse. The recommended clubhouse size by ordinance is approximately 6,000 square feet complete with restrooms combined for all of the multi-family units. The Ivory Ridge Swim and Tennis Club Clubhouse is planned to be a minimum of 6,000 sf.
 2. Swimming Pool: The Ivory Ridge Swim and Tennis club will have pool areas including playgrounds, tot pools and competition lanes.
 3. Each multi-family area will have picnic tables with barbecue areas in the open space area. Additional tables and barbecue areas will be located at the swim and tennis club.
 4. Each multi-family area will contain a playground structure designed to accommodate younger and older children for each of the four areas.
 5. The Ivory Ridge Swim and Tennis club will have 4 indoor tennis courts with 6 outdoor tennis courts.
 6. 2 volleyball courts will be placed in the swim and tennis club open space.
- D. **Fencing:** There are three multi-family areas that will be fenced on at least three sides of the project. The live work apartments will not be fenced due to the type of use. Fencing will be 6 foot sight obscuring vinyl with pillars or masonry fence. The live work apartments will not be fenced due to the type of use.

LEHI CITY

Ivory Ridge

Items of Clarification

1. The buffer requirement of 25' between commercial and residential uses will not be required due to the mixed use area having residential units above commercial uses.
2. All rear loaded units to have 4' Aprons.
3. All private roads in multi-family areas will have 24' Asphalt minimum. These roads to have no parking on both sides.
4. Center Street Cross Sections will be as shown in the Traffic section and as recommended by the traffic study.
