MEMO

Date: July 2, 2019
To: Contractor/Developer doing work in Lehi City Limits
From: BJ Benson – Lehi City Streets Supervisor
Re: Road Cuts on Lehi City Streets

Any Contractor/developer making cuts, bores etc. into a Lehi City Street will need to Contact a Lehi City Streets Inspector, 24 hours prior to making said cut and before any trench, backfilling and or asphalt patching is to be replaced for inspection. Any Water service related cut will need to be scheduled with the Water Department before a permit will be issued. Cold patch will need to be replaced with hot patch mix, flowable fill may be needed as well. Lehi City Public Works Departments are closed on Fridays; however, inspections can be accommodated with notice.

Failure to contact a Lehi City Street Inspector could result in removal of all asphalt and/or backfill at the contractor/developer expense. There will be no exceptions to this request as of the above dated memo.

Lehi City requires with its Encroachment Permits and active “Certificate of Liability Insurance” in the amount of One-Million dollars showing your company as the insured. Also, required is a current “Utah Workers Compensation Certificate” of coverage. These documents are made a part of our confidential files and need to be kept current in order to do work within our city.

Please note on the last page of the permit form, the fee schedule is listed. A check or credit card payment covering these fees is required before the permit can be issued.

Thank you for your cooperation. If you have any questions regarding these fees or the requested certificates, Lehi City Streets Department can be reached Monday through Thursday, 7:00 a.m. to 5:00 p.m. by calling 385-201-2429.
