

Sign Requirements

When completing the Permit Application for a sign, you need to put the cost of the sign and installation on the total valuation line, lower left. Please also include the following:

- Elevation sheets that were approved in Planning and DRC, with dimensions
- All related structural sheets must be stamped, signed, and dated by engineer of record
- A plot plan showing the distance from 2 unmovable points to reference where the sign is to be located
- Curbs, fire hydrants, light poles, and other structures that allow the distances to be measured from 2 different points

All permit/plans must be submitted digitally. Email applications to mabeck@lehi-ut.gov. Signs must be outside of easements unless approved by DRC.
