

RE: Ensure & Glucerna Program

Lehi Senior Center has received information from Mountainland Association of Governments (MAG) informing us that the Ensure & Glucerna Program will be discontinued at all Senior Centers effective April 1, 2022. MAG is the only Aging Department in the State that has been providing the Ensure & Glucerna Program. The Ensure & Glucerna Program has not been self-sustaining for quite a while and there is no funding for it (since 2013), so it is being discontinued to be consistent with the other Aging Departments in the State.

After much discussion and review, MAG has decided to discontinue the Ensure & Glucerna Program at ALL Senior Centers effective April 1, 2022.

We know that this change will impact many of our Seniors and we are very sorry. If we have Ensure & Glucerna left in our inventory after April 1, 2022, we will continue to provide them to our eligible Seniors until our supply is gone.

We are sorry for this inconvenience.

Lehi Senior Citizen Staff
