April 11, 2023

Dear City Council members,

I am pleased to present to you a budget for the upcoming 2023-24 fiscal year. This budget is the culmination of many hours of work which began with the budget retreat in February. The budget is presented based on priorities identified by the City Council and proposals presented by City staff. I commend our City Departments for their dedication to providing quality services for our residents and keeping within budget restraints. All requests were made with this focus in mind and would enhance services provided by the City. Unfortunately, based on budget estimates and funding availability, many requests will need to be reconsidered next year. Careful consideration was made to maintain growth at a conservative level consistent with a growing community.

Commercial and residential growth continue with 993 new permits for homes and businesses in the City. Current estimates place the City's population at 79,798 making Lehi the eleventh largest City in the State of Utah. Rapid growth brings opportunities as well as challenges. More residents increase pressure on City infrastructure. Therefore, continued capital investments must occur. This budget reflects investment in parks, roads, utilities, and building assets. These investments need to occur now to prepare for the City's future.

Lehi's growth can be witnessed financially in both tax revenues and other general revenues. Sales tax revenues have continued to grow at a healthy pace. Property taxes also increased, but at slower growth as guided by Utah property tax laws. No tax increase is proposed this year.

Budget forecasts continue to be made conservatively for the City to respond to changing conditions. The intent is to maintain a high level of service, take care of the City's employees, while remaining able to respond to economic realities. We continue to follow City budgeting policies and best practices that allow for flexibility in the future. This requires attention be paid to growth in both revenues and expenditures.

In evaluating the overall city budget, expenditures in all funds for the fiscal year 2024 total \$307,018,940. This year's budget emphasizes an investment in city infrastructure as well as city employees. High inflation rates continue to impact costs paid to suppliers as well as employees. In response to these economic and market conditions, employees can realize a pay increase of up to 4.0% based on their performance.

The largest ongoing project in the City is the installation of our municipal fiber network. Construction on this network will over the next few years. Significant progress has already been made on the network's backbone. Internet service providers are in place, and we anticipate the first customers coming online prior to the commencement of the 2024 fiscal year.

Last year, funding was provided to construct the City's fourth fire station (Station #84), as well a new facility for the City's library and City Hall. Station #84 is anticipated to open during the 2024 fiscal year. Costs to staff and equip the new station are included in this budget. The additional station will greatly benefit the entire City and significantly improve service and response times to the West side of the City. To fully staff the new station, the City will be hiring fifteen new firefighters, including captains, paramedics, and engineers. Preparation for this increase in public safety expenditures has been planned for several years. Conservative budgeting practices over the past several years have allowed us to fund this significant increase in public safety.

The 2024 budget continues the commitment to invest significant resources in the City's park infrastructure. Funding for parks capital expenditures exceeds \$25 million. These funds come from a combination of impact fees, general fund surpluses and the PARC tax. The PARC sales tax approved by voters last year is providing funding for improvements at Family Park as well as other projects and programs in the City. Included in this year's budget are: the completion of a facility to support the City's parks department as well as parks located at Holbrook Farms and Cold Springs Ranch. Three new positions are also proposed in the Parks department. More positions will be necessary in future years to keep up with the increasing park infrastructure.

The City is committed to providing reliable utility services to Lehi residents at reasonable rates. Market conditions on a local as well as national basis impact the City's cost to acquire electricity provided for City residents. Rates for the City's power utility were adjusted last Summer based on an independent rate study. A combination of weather events and market anomalies have contributed to the often extremely elevated costs for electricity as well as natural gas, which is used to produce electricity. In accordance with sound financial practices, the City has built healthy reserves over several years. These reserves will be drawn down significantly during the 2023. By using a portion of these reserves, Lehi residents will see gradual increases in rates rather than the dramatic volatility currently occurring in the market.

Rates for the City's other utilities will see either a small or no increase for the upcoming year. Strong fund balances allow for no increase in the Culinary Water fund while rates for the Pressurized Irrigation fund are proposed to increase a modest 5%. Rates for the Sewer fund are proposed to increase by 3%, and the monthly storm drain fee will increase \$0.25 per month based on previously adopted rates. The fee for garbage and recycling collections are proposed to increase \$0.75 per month due to the increased fees assessed to the City by its contracted provider.

I believe this budget, as proposed, addresses the needs which will be of greatest benefit to city residents and city employees. As we work closely with the development community, the City's rapid growth can continue in a responsible way. Lehi continues to be on solid financial footing with the aim to secure a high quality of life for current and future Lehi residents.

Respectfully

Mayor Mark Johnson

Guiding Financial Principles

While the City's long-term goals and objectives guide what the budget accomplishes, the accomplishment of these goals and objectives through the budget process is based on following guiding principles:

Budgeting

- Lehi City should finance services rendered to the general public, such as police, fire, streets, and parks, from revenues imposed on the general public, such as property and sales taxes. Special services rendered to specific groups of residents should be financed by user fees, impact fees, license and permit fees, or special assessments.
- Lehi City should balance all budgets annually, in accordance with Utah law, which states the following:
 - The total of the anticipated revenues shall equal the total of appropriated expenditures (Section 10-6-110, U.C.A.)
 - The governing body of any city may not make an appropriation in the final budget of any fund in excess of the estimated expendable revenue for the budget period of the fund (Section 10-6-117, U.C.A.)
- Revenue projections will be based on recent trends and current economic conditions. Projections will be conservative in order to reduce the chance of revenue shortfalls.

- The city will use one time or temporary funds for capital or other nonrecurring purposes. These funds will not be used to fund on-going expenditures.
- Reports will be made quarterly to the City Council to report performance and identify areas in the budget that may need to be adjusted.

Taxation

- Lehi recognizes that Utah property tax regulation do not keep property tax revenue current with inflation. The City will consider adjusting property tax rates to recover lost purchasing power associated with the certified tax rate every two years. Increases in the property tax rate will primarily increase to make tax revenue consistent with inflation.

Debt

- Lehi City should strive for inter-generational fairness. Thus, each generation of taxpayers should pay its fair share of the long-range cost of city services.
- Debt will be only issued for capital projects, not on-going operations. Payments for debt service will not extend beyond the useful life of the asset financed.
- Any debt issuance will be accompanied by the identification of the specific revenue stream which will be utilized to make debt service payments.
- The City will analyze its current debt to identify opportunities to take advantage of long-term borrowing to restructure or refund current debt to achieve improved interest rate and/or debt service payments.
- Finance professionals will be utilized in the area of advising and underwriting to obtain the best possible credit rating and interest rate. These professionals will be chosen based on their expertise and experience.

- Lehi City will regularly evaluate factors related to its credit rating. These factors will be used to develop policies which will maintain a high credit rating for the City.
- Lehi City will adhere strictly to all bond covenants and strive to maintain the best possible credit rating.

Investment Policies

- Lehi City seeks to invest its idle cash in securities and deposits that provide safety and liquidity, while maintaining compliance with Utah State law.
- The City's objectives when determining investment alternatives will be based on (1) safety of principal, (2) liquidity, and (3) return on investment.
- The City will utilize the State of Utah's Public Treasurer's Investment Fund (PTIF) to invest its funds to emphasize security and liquidity.
- Lehi City will also engage investment advisors/brokers as needed to boost return, while keeping in line with liquidity needs and strict adherence to the Utah Money Management Act.
- As required by Utah State law, balances of all public funds will be reported semi-annually.

Reserves

- Lehi City should allow for a reasonable surplus (fund balance) to accumulate for the following purposes:
 - To provide sufficient working capital
 - To provide a cushion to absorb emergencies such as floods, earthquakes, etc.
 - To provide for unavoidable shortfalls in revenues

- Fees will be evaluated on a regular basis. All fees should cover the full cost of the service provided. These costs include a fair allocation of administrative and facilities costs.
- Lehi City's targeted general fund reserve is 20% - 25% of annual general fund revenues.
- Due to the high investment in capital assets and risk exposure, all utility funds will maintain an unrestricted cash reserve of 180 days.

Capital Expenditures

- Proprietary funds are intended to recover the full cost of services. These costs include operations, administration, and asset replacement.
- Lehi will maintain long-term capital plans accounting for the construction and replacement of city facilities and infrastructure.

Proprietary Funds

- The city's enterprise funds will cover the full cost of the service, including a reasonable allocation of administration costs.
- Key indicators will be measured annually to monitor reserve balances, capital replacement, and debt levels.
- Internal service funds will accurately allocate costs to individual departments and funds. The city will maintain the following internal service funds:
 - Fleet
 - Information Technology
 - Risk Management
 - Facilities

Financial Planning

- Lehi City exists only to serve the needs of its residents. Since these needs are continually changing, the City should consistently receive resident feedback based on both long-term and current needs.
- The City will develop and use a multi-year financial plan to identify issues of financial stress. The plan will propose possible solutions to any difficulties which are identified.
- Lehi will use a five-year rolling capital improvement plan with funding identified for all years linked to the operating budget and long-term financing strategy.
