<b>MIXED-USES</b>		
Mixed Use – Residential/Commercial	Spaces shall be provided according to the sum of required spaces for all uses. Bike racks shall be placed in the furniture zone of streets and shall be placed coordinated with any utilities in the space. Additional bike parking may need to be located off-street on the edges of plazas or other visible locations that do not impede pedestrian walking paths.	Spaces shall be provided according to the sum of required spaces for all uses.
Transit Oriented Development – As defined by Chapter 38 of the Development Code	Spaces shall be provided according to the sum of required spaces for all uses. Bike racks shall be placed in the furniture zone of streets and shall be placed coordinated with any utilities in the space. Additional bike parking may need to be located off-street on the edges of plazas or other visible locations that do not impede pedestrian walking paths.	Spaces shall be provided according to the sum of required spaces for all uses.

**Notes:**

1. Bike parking can be modified at the discretion of the Zoning Administrator based on anticipated use, size of the building, or other considerations.
2. After the first 16 bike parking spaces are provided, any additional required bike parking spaces may be reduced by 50 percent.
3. If a use is not listed on this Table, the minimum requirement will be two inverted U's (four parking spaces).
4. For the Historic Commerce district or multi-tenant commercial, location of bike parking may be coordinated into centralized areas.
5. If public bike parking is available on the same block-face it may be counted toward required bike parking.
