AFTER SCHOOL CLASS

Class 1: Foundational Engineering: Machines and Contraptions (Ages 5-8)

Description: Does your child love to tinker and create new things, or are they the kind of learner who likes to break things apart to see what's inside? If so, they're going to love Snapology's Foundational Engineering: Machines and Contraptions program! This program gives your student the tools they need to understand mechanical movement and the importance of simple machines. They will see these moving parts up-close as they follow instructions to build various machines and contraptions, then use the models to develop new design ideas, test out physics concepts, and even play games with their partners and classmates! Whether they are the creative-constructive type or prefer the inquisitive-deductive way of learning, this program is sure to spark their engineering interests!

Class 2: GameBots Robotics (Ages 9-12)

Description: Calling all gamers! Have a blast creating robotic games each week while learning about robotics. Students will learn about gear ratio, sensors, programming, and pulleys as they create fun to play games. Whether creating a pinball machine, duck hunt or a ring toss game, your child is sure to have fun building, learning, and playing.

**This is a build & destroy class. LEGOs will not be taken home.*

SCHEDULE

CLASSES	AGES	DATES	TIME
Class 1	5-8 yrs.	Sept. 9, 16, 23, 30, Oct. 7, 14	5:00- 6:00 p.m.
Class 2	9-12 yrs.	Sept. 9, 16, 23, 30, Oct. 7, 14	6:15- 7:15 p.m.
