****This is a build & destroy class. LEGO®s will not be taken home****

Parents of children aged 7 & younger: For the safety of our younger participants, parents who are picking up or dropping off children aged 7 & younger must do so directly from the classroom.

Class 1: Ages 6-12yrs. POKEMANIA

In this class, students will explore the Pokémon® world and practice their Pokémon® training skills! Campers will explore real-world science as they examine the habitats, characteristics, and needs of different Pokémon®.

Class 2 : Ages 6-12yrs. MINECRAFT

Join us as we bring the game of Minecraft® out of the computer and into the real-world using LEGO® bricks. In this program, campers will use their imagination and design their own worlds full of mobs, animals, buildings, and LEGO® Minecraft® characters.

Class 3: Ages 5-8yrs. STORY BUILDERS

Campers will dive into hands-on building activities, then learn to craft their own original tales brick by brick. Each day combines structured building challenges with open-ended creative time, allowing campers to explore storytelling from multiple angles.

Class 4 & 5: Ages 6-12yrs. ROBOTICS

Build it. Code it. Watch it go! Campers will team up to design and program real robots using LEGO® WEDO 2.0 Kits. Kids learn the fundamentals of coding, sensory, gears, and simple machines.

Class 6: Ages 10-14yrs. ADVANCED ROBOTICS

Using LEGO® Spike Prime Kits, campers take on more complex builds and deeper programming challenges. They will design robots that respond to multiple sensors, explore how mechanical components affect power and speed, and write programs that bring their creations to life.
