Lehi, Utah 84043-1895  
385-201-1000

April 08, 2025

Dear City Council members,

I am pleased to present to you a budget for the upcoming 2025-26 fiscal year. This budget is the culmination of many hours of work which began with the budget retreat in February. The budget is presented based on priorities identified by the City Council and proposals presented by City staff. I commend our City Departments for their dedication to providing quality services for our residents and keeping within budget restraints.

Lehi continues to experience commercial and residential growth, with 645 new permits issued for homes and businesses. The city's population is currently estimated at 90,227, making it the eighth-largest city in Utah. Although the growth rate has slowed compared to previous years, the demand on city infrastructure remains substantial. Both commercial and residential construction are expected to accelerate in the near future. To support this growth responsibly, ongoing investments in infrastructure are essential to prevent undue burdens on future residents.

While Lehi continues to experience economic development, growth in sales tax revenue slowed during calendar year 2024. However, demand for employees, particularly in public safety, requires the City to stay committed to keeping pace with the market for employee wages and benefits. Furthermore, as Lehi continues to add parks and recreation facilities, additional staff will be required to keep the facilities fully operational.

Rising employee costs and increasing prices for contracted goods and services have limited the City's ability to fund all budget proposals. While many of these proposals would provide meaningful benefits to Lehi residents, the proposed budget was developed with a focus on fiscal responsibility, maintaining conservative growth, and ensuring the City operates within its means. These objectives have been successfully achieved without requiring an increase to property tax rates.

Three police officers, three parks employees and two administrative employees are included as new positions in this year's budget. The administrative positions will allow the City better focus on fiscal responsibility, adherence to State regulations, transparency, and community education. However, to ensure expenditures align with revenues, the administrative positions will be on hold until indicators are received relative to the City's tax revenues. While several other positions were proposed, they will need to be considered in future budgets. The budget committee continues to take a conservative approach to forecasting, enabling the City to remain adaptable to changing conditions. The goal remains to maintain a high level of service, support City employees, and remain responsive to economic realities.

In evaluating the overall city budget, expenditures in all funds for the fiscal year 2026 total \$286,368,379. This is significantly less than last year's budgeted expenditures of \$354,420,812. This is

primarily related to fewer capital projects in the upcoming year. During fiscal year 2025, the City completed the current phase of Family Park as well as Fire Station #84. Both facilities will contribute to the quality of life of Lehi's citizens.

The City is currently working on several capital projects throughout the City. The City's fiber network and Library/City Hall are anticipated to be completed during the first half of the fiscal year. Construction on both projects is progressing on time and on budget. I believe residents will be pleased with the results of the projects and the positive impact they will have on our community.

While there are fewer capital projects in this budget than in previous years, the budget does propose the construction of the first phase of the City's public works yard. Expansion is needed to accommodate the personnel and fleet required to maintain the City's water, sewer, pressurized irrigation and storm drain systems. This was proposed in last year's budget. However, construction was not able to begin and the project is included again in this year's budget. I am committed to continue to invest in city infrastructure in order to maintain reliable systems.

The City continues to invest in expanding park infrastructure. Family Park opened last fall and provides unique recreational opportunities to City residents. Lakeview Park as well as Holbrook Parks I & II are scheduled to open in the upcoming year. These new park facilities will be a great asset to the City and its residents. In order to support the commitment to park infrastructure, an additional three employees are proposed to be added to the current staff in this year's budget.

When considering rates charged to utility customers, several factors are considered, including operational costs, capital needs and external factors outside the City's control. Additionally, comparative rates with neighboring cities are evaluated to consider the reasonableness of the rates Lehi charges. Keeping rates at a level to meet operational and capital needs is critical to maintain City infrastructure and not passing on larger rate increases to future customers.

No rate increases are planned for Culinary Water, as this fund maintains strong reserve levels and operational coverage. However, a 5% increase is proposed for Pressurized Irrigation to support new and expanded infrastructure, including the State-mandated project to install meters on all connections. Sewer rates are expected to rise by 15% due to significant increases in treatment costs. While the City owns the distribution lines, wastewater treatment is managed by the Timpanogos Special Services District (TSSD), which accounts for 89% of the Sewer Fund's budgeted expenditures. As TSSD increases its rates, corresponding adjustments must be made for end users.

The Storm Drain fee will increase by \$0.25, marking the final scheduled adjustment from the rate analysis conducted five years ago. Additionally, garbage rates will rise by \$1 per month to align with cost increases from the City's contracted service providers. Despite these adjustments, Lehi City's utility rates will remain among the lowest compared to neighboring cities.

I believe this budget, as proposed, addresses the needs which will be of greatest benefit to city residents and city employees. As we work closely with the development community, the City's rapid growth can continue in a responsible way. Lehi continues to be on solid financial footing with the aim to secure a high quality of life for current and future Lehi residents.

Respectfully

Mayor Mark Johnson

# Guiding Financial Principles

While the City's long-term goals and objectives guide what the budget accomplishes, the accomplishment of these goals and objectives through the budget process is based on following guiding principles:

## **Budgeting**

- Lehi City should finance services rendered to the general public, such as police, fire, streets, and parks, from revenues imposed on the general public, such as property and sales taxes. Special services rendered to specific groups of residents should be financed by user fees, impact fees, license and permit fees, or special assessments.
- Lehi City should balance all budgets annually, in accordance with Utah law, which states the following:
  - The total of the anticipated revenues shall equal the total of appropriated expenditures (Section 10-6-110, U.C.A.)
  - The governing body of any city may not make an appropriation in the final budget of any fund in excess of the estimated expendable revenue for the budget period of the fund (Section 10-6-117, U.C.A.)
- Revenue projections will be based on recent trends and current economic conditions. Projections will be conservative in order to reduce the chance of revenue shortfalls.

- The city will use one time or temporary funds for capital or other nonrecurring purposes. These funds will not be used to fund on-going expenditures.
- Reports will be made quarterly to the City Council to report performance and identify areas in the budget that may need to be adjusted.

## **Taxation**

- Lehi recognizes that Utah property tax regulation do not keep property tax revenue current with inflation. The City will consider adjusting property tax rates to recover lost purchasing power associated with the certified tax rate every two years. Increases in the property tax rate will primarily increase to make tax revenue consistent with inflation.

## **Debt**

- Lehi City should strive for inter-generational fairness. Thus, each generation of taxpayers should pay its fair share of the long-range cost of city services.
- Debt will be only issued for capital projects, not on-going operations. Payments for debt service will not extend beyond the useful life of the asset financed.
- Any debt issuance will be accompanied by the identification of the specific revenue stream which will be utilized to make debt service payments.
- The City will analyze its current debt to identify opportunities to take advantage of long-term borrowing to restructure or refund current debt to achieve improved interest rate and/or debt service payments.
- Finance professionals will be utilized in the area of advising and underwriting to obtain the best possible credit rating and interest rate. These professionals will be chosen based on their expertise and experience.

- Lehi City will regularly evaluate factors related to its credit rating. These factors will be used to develop policies which will maintain a high credit rating for the City.
- Lehi City will adhere strictly to all bond covenants and strive to maintain the best possible credit rating.

### **Investment Policies**

- Lehi City seeks to invest its idle cash in securities and deposits that provide safety and liquidity, while maintaining compliance with Utah State law.
- The City's objectives when determining investment alternatives will be based on (1) safety of principal, (2) liquidity, and (3) return on investment.
- The City will utilize the State of Utah's Public Treasurer's Investment Fund (PTIF) to invest its funds to emphasize security and liquidity.
- Lehi City will also engage investment advisors/brokers as needed to boost return, while keeping in line with liquidity needs and strict adherence to the Utah Money Management Act.
- As required by Utah State law, balances of all public funds will be reported semi-annually.

### **Reserves**

- Lehi City should allow for a reasonable surplus (fund balance) to accumulate for the following purposes:
  - To provide sufficient working capital
  - To provide a cushion to absorb emergencies such as floods, earthquakes, etc.
  - To provide for unavoidable shortfalls in revenues

- Fees will be evaluated on a regular basis. All fees should cover the full cost of the service provided. These costs include a fair allocation of administrative and facilities costs.
- Lehi City's targeted general fund reserve is 20% - 25% of annual general fund revenues.
- Due to the high investment in capital assets and risk exposure, all utility funds will maintain an unrestricted cash reserve of 180 days.

### **Capital Expenditures**

- Proprietary funds are intended to recover the full cost of services. These costs include operations, administration, and asset replacement.
- Lehi will maintain long-term capital plans accounting for the construction and replacement of city facilities and infrastructure.

### **Proprietary Funds**

- The city's enterprise funds will cover the full cost of the service, including a reasonable allocation of administration costs.
- Key indicators will be measured annually to monitor reserve balances, capital replacement, and debt levels.
- Internal service funds will accurately allocate costs to individual departments and funds. The city will maintain the following internal service funds:
  - Fleet
  - Information Technology
  - Risk Management
  - Facilities

## **Financial Planning**

- Lehi City exists only to serve the needs of its residents. Since these needs are continually changing, the City should consistently receive resident feedback based on both long-term and current needs.
- The City will develop and use a multi-year financial plan to identify issues of financial stress. The plan will propose possible solutions to any difficulties which are identified.
- Lehi will use a five-year rolling capital improvement plan with funding identified for all years linked to the operating budget and long-term financing strategy.
