NIBRS

NIBRS vs. UCR Crime Reporting: How Crime Statistics are Collected

The Lehi City Police Department submits crime statistics to the Bureau of Criminal Identification (BCI) and eventually the FBI using the National Incident-Based Reporting System (NIBRS).

What is NIBRS?

NIBRS is a method of collecting data based on each single incident and arrest. For example: During the commission of a residential burglary, the offender rapes and murders the homeowner. NIBRS counts three offenses: burglary, rape, and murder.

NIBRS categorizes crime into Group A and Group B offenses. Group A offenses include Crimes against Persons, Crimes against Property, and Crimes against Society. Crimes against Persons are those in which the victim is always an individual (i.e. murder, rape, assault). Crimes against Property are those which money or property is obtained from the crime (i.e. robbery, burglary, bribery). Crimes against Society represent society's prohibition against engaging in certain types of activity (i.e. gambling, prostitution).

NIBRS Group A Offenses include:

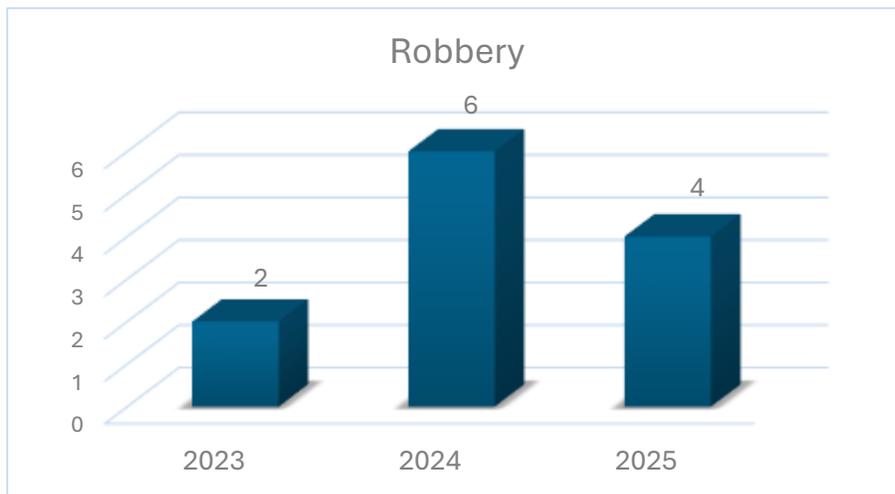

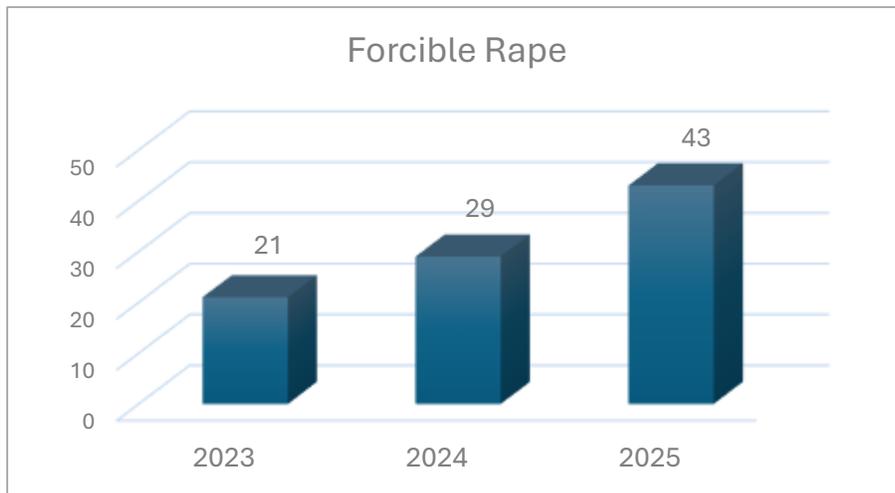

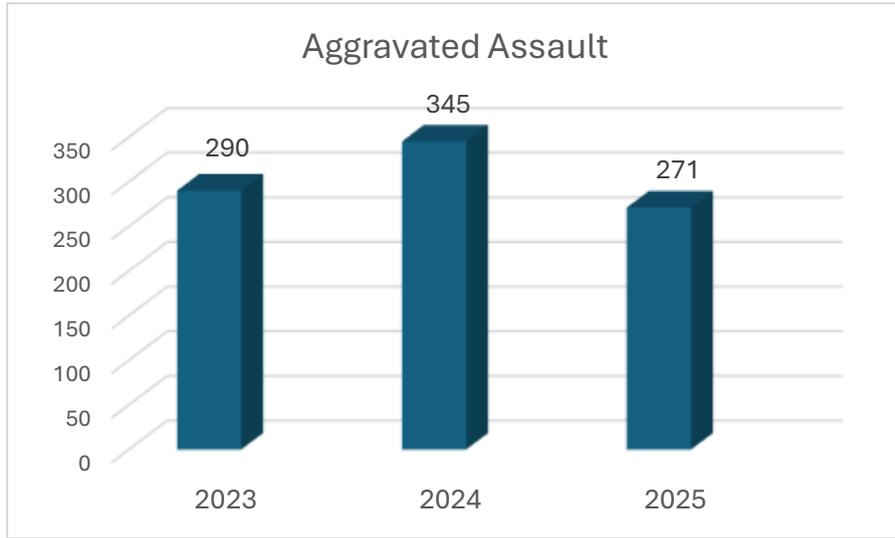

- Murder/Non-Negligent & Negligent Manslaughter
- Justifiable Homicide
- Kidnapping/Abduction
- Forcible Rape, Forcible Sodomy, Forcible Fondling
- Sexual Assault with an object
- Aggravated Assault, Simple Assault, Intimidation
- Incest
- Statutory Rape
- Robbery
- Arson
- Burglary/Breaking & Entering
- Extortion/Blackmail
- Larceny

NIBRS Group B Offenses are only reported in the event of an arrest, and include:

- Bad Checks
- Curfew Violations/Loitering/Vagrancy
- Disorderly Conduct
- Driving Under the Influence
- Family Non-Violent Offenses
- Liquor Law Violations, Drunkenness
- Peeping Tom
- Runaways (Persons under 18)
- Trespassing
